The meeting

1. Progress report

PM is writing the progress report with input from Arne and Maria on the financial issues and from Katarina on the output indicator protocol. PM will send the draft to our monitor the 19th of February and to EC the 26th of February.

In this report we will respond to specific remarks from EC and also verify this by supporting documents from beneficiaries. We need to show that the financial and administrative part is in order. Most of the issues was addressed in PMG meeting 12 November 2015 and we have sent reminders by mail.

Instructions for how to report time and costs are on our website: Documents/project documents

Coordinating beneficiary (CB) needs

-All signed timesheets from start until the end of 2015. They should include time worked other than in the project.

-Salary slip or extracted pay roll register per calendar year per employee
This is to report annual gross salary; the actual salary included obligatory social charges.

- If the hourly cost has changed since the estimate in the application it must be followed by an explanation. This concerns especially the higher salaries. EC mentioned some of you specifically.

- An extract from the analytical accounting system showing the project costs booked on the specific cost account/project code

- Invoices

All invoices shall include a clear reference to the project LIFE10/ENV/SE/000037 PVCfreeBloodBag. All cost transactions require a detailed explanation. It must be clear what the invoice concerns. If not they will be rejected.

Regarding travel expenses, duration and purpose of the travel should be included in the description. There must be supporting documents for travel expenses (ledgers for cars, expense reports etc). Car rental procedures need to be explained.

- Signed agreements with subcontractors and major suppliers also must contain a reference to the project LIFE10 ENV/SE/037.

- Scanned and mailed photos of the equipment with the LIFE logo on
Inventory paid for by the project MUST have the Life plus logotype on. CB have stickers and sent some to Primo and Haemotronic.

At the meeting Arne reminded us about the above and added some general tasks.
Specific requests will be sent to those beneficiaries it concerns.

-How each beneficiary calculate their internal costs has been requested by EC and they mentioned Melitek and Wipak specifically. We therefore need help from you explaining with words and figures how it works.

- Travel costs also need to be explained as mentioned above.

- Arne and Maria will send information regarding personal costs.

- Regarding public beneficiaries as CB and Karolinska, the employments need to have a reference to the project. It could either be fulfilled by a reference in the individual employment contracts or on a separate paper. Arne will send an example to those working at Karolinska.

2. The production of the bags for the user tests

PM have invited representatives from Melitek, Wipak, Primo and Haemotronic for a separate meeting to discuss what and how we proceed.

3. Update in the rest of the actions

Petter Höglund and Hans Gulliksson told the meeting about the storage studies of red blood cells in new bags. Blood donations have been made at four occasions; 2 during the autumn and 2 in January. The testing is proceeding according to plan and within a couple of weeks we will have the results.

Hans also described the handling- and quality problems that occurred. Those obstacles we need to overcome before the user tests start. They will be discussed in a separate meeting.

In action 21 about organisation of the final seminars Petter and Hans suggested two different conferences/meeting suitable for presenting evaluation result to the target group within Transfusion medicine. Hans suggested a presentation at the expert meeting of BEST (Biomedical Excellence for Safer Transfusion) that includes leading representatives in Transfusion Medicine and the major industries within this field. The meeting will be held preceding the AABB meeting in Orlando in October.

Petter mentioned the ISBT (International Society of Blood Transfusion) conference in Dubai in September. <http://www.isbtweb.org/dubai/>

Both of them seems suitable for sharing the projects outcome and increase demand within healthcare.

4. Next PMG meeting

7th of April 13-14 CET

Those of you that haven't filled in the doodle sheet with suggestions for this year. Please do.
